

Inside Bubble Earth: Climate Change

© by Des Hunt

Contents

Introduction

Shapes in the dark

Shining the light

1. Beginnings

Bubbles Big and Small

Investigating bubbles

A Climate Survivor Story

Variation

2. Science of Climate Change

Living Things

Building Blocks

Photosynthesis

Respiration

Carbon

Light

Properties of Light

Greenhouse effect

Investigating the Greenhouse Effect

3. Causes, Consequences and Cures

CO₂ and Fossil Fuels

Deforestation v Food

Methane and Animals

Nitrous Oxide and Fertilisers

Disasters: Bushfires, Floods, Storms, Rising sea level.

Acidic Oceans

Animal Extinctions

5. At the End
